# WELCOME MESSAGE

---

As we share YAWE's 2025 Annual Report, I am proud to reflect on a year marked by purpose, resilience, and meaningful progress.

At YAWE, our mission has always been clear: to empower young people and strengthen communities through inclusive, sustainable development. In 2025, we translated that commitment into action. We expanded our programs, deepened community engagement, and strengthened the systems that support our work. Each initiative was designed not only to address immediate needs, but to create long-term opportunity and stability.

This year, we invested intentionally in capacity building—both within the organization and among the young people we serve. We refined our strategies, improved accountability mechanisms, and reinforced partnerships that amplify our reach. The result is impact that is measurable, responsible, and community-driven.

The achievements outlined in this report belong to our team, volunteers, partners, donors, and the communities who trust us. Your collaboration and belief in our mission make this work possible. Together, we are building pathways for leadership, economic empowerment, and sustainable change.

As you read through this report, I hope you see more than milestones. I hope you see momentum—evidence of what can be achieved when vision is paired with disciplined execution and collective commitment.

Thank you for standing with YAWE. The work continues, and so does our resolve.

*Vicent Laurent*

*Executive Director*

# ABOUT YAWE

Youth and Women Emancipation (YAWE) is a youth-led innovative development organization working to empower the poorest women, youth and children in Tanzania. YAWE is registered under the Tanzania NGO Act no 24 of 2002, legally mandated to operate in the Tanzania Mainland. Our organization's goal is to empower the marginalized youth, women, and children with the skills, resources, and opportunities to contribute towards sustainable and inclusive development in Tanzania.

## OUR VISION

We envision having women, youth, and children in Tanzania leading independent, dignified lives and driving sustainable development in the communities of Tanzania.

## OUR MISSION

To empower marginalized youth, women, and children with the skills, resources, and opportunities to contribute towards sustainable and inclusive development in Tanzania.

## OUR CORE VALUES

YAWE is for everyone who believes in our five core values.

- Transparency
- Accountability
- Professionalism
- Partnership
- Non-discrimination

## OUR AREAS OF OPERATIONS

YAWE's work is framed into four major thematic areas.

- Climate Action and Environment
- Health and Nutrition
- Gender Equality and Child Protection
- Democracy and Good Governance

# PROGRAMS REVIEW

## REACTS-IN PROJECT |2023-2030

REACTS-IN project is a seven-year partnership project that seeks to support the strengthening of nutrition and health systems with a focus on the gender dimensions of malnutrition and contributes to achieving the World Health Assembly's global nutrition targets. The program is implemented using multi-sectoral, evidence-based approaches that address the key determinants of nutrition, gender inequalities and sexual reproductive health to improve the health and nutrition of women, adolescent girls and children under five in Tanzania specifically in Meatu and Maswa district councils of Simiyu region with funding from Global Affairs Canada.

In Tanzania, the REACTS-IN project is implemented in two districts of Maswa and Meatu in Simiyu Region and seeks to achieve three objectives.

- 1). Ensure women and adolescent girls have equitable access to nutrition, health, WASH (Water, Sanitation, and Hygiene) and SRHR practices.
- 2). Enhance the availability and quality of gender-equitable and responsive nutrition, health and SRH services.
- 3). Strengthen the effectiveness of local stakeholders in realizing the nutrition and SRH rights of women and girls.

### REACH OF REACTS-IN 2025

113

Health facility workers from 71 health facilities on the implementation of community-based distribution of Family planning

14,864

Clients received family planning services in Meatu and Maswa district councils

6,205

Beneficiaries reached during the family planning promotion day in 97 villages of Maswa and Meatu using sports and games

2,647

12,217

20,574

Adolescents reached in 96 schools reached with SRHR and Anti- GBV education during the annual sports competition

1,370

4,835

8,689

11,885

# PROGRAMS REVIEW

## INCLUSIVE CLIMATE ENTREPRENEURSHIP PROJECT |2025-2026

Around Mwantini Forest Reserve in Shinyanga, over 35% forest loss has intensified heat, erosion, and crop failure, affecting 33,000 residents, especially women, youth, and persons with disabilities, who face limited access to climate finance and green jobs.

The project seeks to empower these groups through an inclusive, climate-smart beekeeping ecosystem that strengthens livelihoods and resilience.

Expected results include improved adaptive capacity, greater access to green economic opportunities, and stronger DEI integration within Yawe and community groups to ensure equitable participation and leadership.

### PROJECT REACH -IN 2025

116

Beneficiaries reached and trained on modern beekeeping practices in Shinyanga

63

53

17

100

Beehives made and installed for beekeeping activity

3

Staff members from Yawe capacitated and received mentorship on DEI integration into program design and governance

*“Since joining the beekeeping project, I’ve learned new skills, earned extra income, and gained confidence to participate in community decisions”-Elice from Kilimawe village*

# PROGRAMS REVIEW

## YOUTH VOICE FOR CLIMATE ACTION PROJECT |2025-2026

Youth Voice for Climate Action is a 12-month project implemented by Youth and Women Emancipation (YAWE) and funded by the European Union through Oxfam under the AU-EU Youth Action Lab. It addresses climate challenges in Shinyanga, such as drought, erratic rainfall, and declining farm productivity, which worsen inequality. The project promotes inclusive, youth-led climate governance by increasing marginalized youth participation in decision-making and strengthening local government accountability to youth-driven climate priorities.

### PROJECT REACH-IN 2025

**6,652**

Tree seedlings planted to support local reforestation efforts

**3,869**

Community members reached by young leaders through awareness campaigns on climate change

**23**

Young leaders trained on climate policy advocacy and leadership skills to champion climate initiatives in their communities

**1,626**

**2,223**

**33**

**40**

Committee members trained on environmental governance and responsibilities

**6**

Young leaders secured positions in the natural resource governance committees

*“The project created an important platform for young people, especially young women and persons with disabilities, to express our climate concerns and engage directly with local authorities, which helped make our voices more visible in community decision-making”-Eunice from Shinyanga Municipal*

# PROGRAMS REVIEW

## ADOLESCENTS & YOUNG PEOPLE AT THE HEART: PREVENTING AND TREATING HIV AT THE STIGMA PROJECT |2025-2026

Structural and behavioral attitudes often create barriers to health and contribute to the spread of HIV and AIDS. Community and civil society engagement helps identify local solutions, build ownership, and support sustainable change. In line with the Global Fund's priority to remove human-rights barriers to HIV prevention, Yawe contributes to the project Adolescents and Young People at the Heart: Preventing and Treating HIV in a Stigma-Free Society, funded by the Italian Agency for Development Cooperation, by organizing annual support and sharing sessions for adolescents and young people living with HIV to encourage mutual support and future activism.

### PROJECT REACH-IN 2025

81

Adolescents living with HIV were empowered to be agents of change in their communities

43

38

Distribution of adolescents reached by gender

52% vs 21%

Youth reporting stigmatizing beliefs decreased from baseline to after the sessions

60% to 88%

Adolescents who reported understanding the importance of consistent ARV use increased

*“The sessions helped me feel less alone and more confident to talk openly about living with HIV, learning about ARV adherence, nutrition, and leadership encouraged me to challenge stigma and support other young people in their community”-Upendo from Didia village in Shinyanga.*
